Silver, **Gold**
Space Gray, **Rose Gold**

Beautiful aluminum design & colours.

Taking design cues from Apple's iconic aluminum keyboards, the Matias Wireless Aluminum Keyboard fills a few gaps that Apple chose not to pursue...

For starters, we offer it in 4 gorgeous colours — **Silver**, **Gold**, **Space Gray**, and **Rose Gold**. Owners of the ultralight, ultrathin, **Apple MacBook** can now have a Bluetooth wireless keyboard that matches its look and colour, and feels great to type on.

Wireless with a number pad.

If you like Apple's wired keyboard with numeric keypad but wish it were wireless, this is the one to get. It's just as nice.

Mac-friendly function keys.

Just like an Apple keyboard, the function keys let you control screen brightness, volume, iTunes, and more.

There's even an Fn key, that lets you momentarily change the function keys back to their traditional duties, when you need them.

Pairs up to 4 Bluetooth devices — Mac, iPad, iPhone, Windows, or Android.

It may look like a Mac keyboard (and it is) but the Matias Wireless Aluminum Keyboard can do a few extra tricks...

You can pair up to 4 Bluetooth devices, easily switching between them with the press of a button, and the keyboard adjusts its

where can I get
one?

layout to match each device (as you switch) — whether it's Mac, iPad, Windows, Android, etc.

1-year battery life.

No expense was spared to make this the best Bluetooth keyboard possible. That includes putting a *much* bigger rechargeable battery in it than we had to — 1,600 mAh.

That's 5x to 12x bigger than what's inside most other wireless keyboards; big enough to last a year, on a single charge.

Stays on. Stays connected.

Other wireless keyboards will often power down and disconnect to conserve battery life — leaving you waiting, *each time* they reconnect.

With its BIG battery, the Matias Wireless Aluminum Keyboard doesn't need to do that. It stays on, and stays connected.

These simple luxuries — not having to worry about batteries, no waiting to reconnect — make it feel more like a wired keyboard.

manuals

Online versions of the users manual are available in [English](#), [French](#), and [German](#).

Specifications

In the box:

- Keyboard
- Charging cable (USB)
- Users manual

System Requirements:

- Mac or PC with Bluetooth
- Mac OS X v.10.6.8 or later (for Mac function keys)
- iPad
- iPhone or iPod touch
- Android 3.0 or higher

Warranty:

1 year limited warranty ([more info](#))

Dimensions:

17.35" x 4.58" x 0.75"
(44.1 x 11.6 x 1.9 cm)

Cable Length

3.25 feet (1 m)

Weight:

1.18 lbs (535 g)

Battery:

1,600 mAh rechargeable lithium-ion polymer battery

Battery Life:

1 year

Uninterrupted Typing Time

533 to 1,600 hours
(varies depending on typing speed, indicator lights, etc.)

Standby Time

2 years
